## Parts are Parts

Figure 1 UBA® ICB® Assembly (Standard Cash Box)

**Part No.** 701-000179R

**Description:** UBA® ICB® Assembly (Standard Cash Box)

**Usage:** The Intelligent Cash Box Assembly (refer to **Figure 1**) is installed on the UBA Standard Cash Box. Powered by a lithium chromium battery, the ICB Assembly contains the memory used to store UBA Banknote Acceptance data, UBA Performance data and circuitry used to communicate with the UBA and Count Room Docking Station. The Intelligent Cash Box Assembly is the main component used for transferring UBA Historical data to the Count Room system and, ultimately, to ICB Web Reports.

**Note:** The UBA ICB Assembly is activated by turning on the Power Switch on the bottom left side of the Assembly (refer to **Figure 1**), then placing the Cash Box on a Docking Station to initialize the memory.

The Latest JCM Software Listing (shown above) identifies specific software versions that have been released to OEMs. It is the responsibility of the OEM to obtain all required approvals from Gaming Regulators and Jurisdictional Authorities necessary for use of approved software versions. Contact the Game Manufacturer (OEM) for information on specific software releases approved for use within your gaming jurisdiction.

JCM recommends using the latest version for maximum acceptance, security, and performance.

## JCM Service Offerings
